Pawtucket and New England Institute of Technology Agree to Bring New University Opportunities to Residents

New England Institute of Technology to establish a new University Resource Center

PAWTUCKET- New England Institute of Technology (NEIT) has announced its agreement with the City of Pawtucket, Boys & Girls Club of Pawtucket (BGCP) and Pawtucket Central Falls Development (PCFD) to provide greater access to higher learning opportunities for students and adult learners in Pawtucket. NEIT is establishing a Pawtucket presence with a new University Resource Center downtown at 2 Bayley Street, a property owned by PCFD.

The University Resource Center will be the point at which Pawtucket students can embark on a dedicated shuttle to the NEIT campuses in Warwick and East Greenwich. The new Center will provide a shuttle waiting area, house a community meeting space and a student lounge. NEIT will offer information sessions for students, their families, and friends as well as prospective students.

NEIT has worked with the City to engage civic and education leaders to develop community awareness of the coming program.

in our City will provide a more accessible and flexible higher learning and technical experience
